SEVENTH-DAY ADVENTIST
Rufus B. McDannel, Pastor
Sabbath School Lesson for Mar. 11, 1972
Subject: Learning To Worship Scripture Text "By Him therefore let us offer the sacrifice of praise to God continually that is the fruit of our lips giving thanks to His name." Heb. 13:15.
Worship is enjoined upon man. Gen. 35:1, Heb. 10:25. It is to be offered to God only. Ex. 20:3; Rev. 22:9. Only the worship of one who looks to Christ for righteousness is acceptable to God. Gen. 4:2-5. True worship comes only from the heart for cleansing from iniquity. Ps. 66:19, "The Lord desires . . . that those who come to worship Him shall carry away with them precious thoughts of His care and love, that they may be cheered in all employments of daily life, that they may have grace to deal honestly and faithfully in all things. "We must gather about the cross. Christ and Him crucified should be the theme of contemplation, of conversation, and our most joyful emotion. We should keep in our thoughts every blessing we receive from God, and when we realize His great love we should be willing to trust everything to the hand that was nailed to the cross for us" – Steps to Christ pages 103,104.
God chose Isaiah to teach us how to improve our worship– Read Isa. 1:11-13.
Sabbath School – 10 a.m.
Church Service – 11 a.m.
Rember you will always find the "Lunchstring" on the outside at the "Little Friendly Church" on Church Street in Appomattox on Sabbath's come and bring your "Friends" with you.

The "April-like" days last week really got a response from the garden growers. It was a perfect time to begin getting plant beds ready for seeding.
Seems to me there's going to be more growers using Methyl Bromide for controlling weeds this year. It's a good product that has been around for a long time. In addition to weeds, you can control nematodes and insects.
Some home gardeners have had problems in limited areas.

John Alvis has a new pole-type machinery shed under construction. Someone asked if it was being built by a VPI plant science class. I'm trying to copy it.

This reminds me to say that we have a wide selection of garden plans available from our office. Why not stop by and get many day and study some?

* * *

Jack Ferrell recently added a new cattle boss to his herd. The new bull weighed 600 pounds at 18 months of age. Joe sells purebred cattle and if you see the new bull, I believe you'll agree that he will look good in most any herd.

The Culpeper BCIA Bull Sale will be this Friday, March 10, Certainly this is an outstanding set of bulls for this location that's made a significant contribution to Virginia Cattle.

Every cattleman needs to remind himself that no matter how much pedigree, if the cattle don't grow and produce milk, they won't be profit-makers. The Culpeper record is the envy of Virginia Cattle. Of the among 78 bulls, only 3 weighed over 1000 pounds in 1967, five years later, three bulls weighed over 1000 and there were 82 bulls. Five years later, 1971 these bulls went over the 1000 mark from a total of 81 bulls this year out of 116 that cracked 1000 pounds. The 1000 pounds is the 365 day weight.
Is a growing bull? This is the year for you at the Appomattox County Courthouse homes for more than 100 kinds of bulls.
